

MAXI rennukerfi frá Hydrotec

Vatnsrennur til notkunar á stígum og bílplönum. Kerfið hentar vel bæði fyrir bundið slitlag og hellulagða fleti til að veita vatni í burtu. Þolir þungaumferð.

Load class: C250 – F900

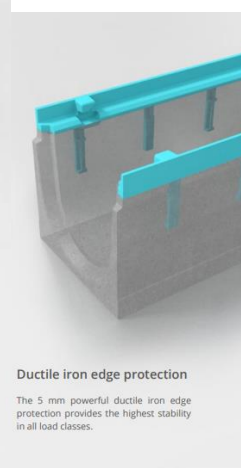

Special element

Can be used as corner or T-element.

High load capacity

System for using in extreme demands and different aspects of safety (class F 900)

Ductile iron edge protection

The 5 mm powerful ductile iron edge protection provides the highest stability in all load classes.
